- 3 STAPLE EVENTS
- 5+ PARTNER EVENTS
- YEAR-ROUND
- BEST PARTNER ON-RAMP
- V1.0

Community Service is E100's most visible external program — and its most powerful business development tool. **Serving alongside a company is the first entrance into the E100 house.** No other program converts strangers into partners faster than standing next to them doing good.

THE STRATEGIC TRUTH

Community Service is E100's greatest partner acquisition tool. When a company stands next to E100 members and serves the community together, something shifts. It's no longer a transaction — it's a shared value. That moment of service is the warmest possible introduction to what E100 is. The Partnerships committee should know every company that has ever served with us.

Smaller events are intentional, not secondary. The backpack drives, the sandwich packing, National Volunteer Week — these are not filler events. They are partner cultivation moments. Each one is an opportunity to invite a new company into the ecosystem. Think of them as the top of the partner funnel.

MLK Day — new ownership model (2025+): Previously owned entirely by the incoming class. New structure: incoming class owns Saturday, Community Service committee owns Monday. Both days under the same umbrella event. The committee ensures quality, consistency, and community continuity regardless of which class is coming in.
