

THE PLAYBOOK – INTERNAL DEVELOPMENT – INT-02

CORPORATE ROUNDTABLE

- GBM HOSTING
- EXECUTIVE ACCESS
- MEMBER DEVELOPMENT
- PARTNER PIPELINE
- V1.0

Corporate Roundtable does two things: **it brings E100 into corporate spaces monthly through General Body Meeting hosting, and it creates intimate executive access moments for members.** The beauty is in the variety – no two spaces are the same, and every space opens a door.

Collaborates with Partnerships

Corporate Roundtable and Partnerships & Fundraising work

THE BEAUTY

Variety of Spaces

E100 can go to lots of various spaces. Each new venue is a relationship and a door.

together & shared corporate relationships.

Corporate Roundtable is the physical manifestation of E100's corporate relationships. Every time E100 holds a General Body Meeting inside a Fortune 500 company's office, something happens & members feel the aspiration, the host company sees E100 up close, and the relationship deepens. The room matters. Corporate Roundtable picks the rooms.

Collaboration with Partnerships is essential. Corporate Roundtable opens doors & Partnerships walks through them to fundraise. A company that hosts an E100 General Body Meeting is already warmer than a cold call. Corporate Roundtable and Partnerships must share intel on which companies are engaging and at what level.
